SUMMARY

Software engineer focused on fullstack web engineering and applied AI. Ship production React frontends and Spring Boot APIs at Breezeware. Comfortable owning features end-to-end from database schema to UI polish.

SKILLS

Languages: JavaScript, Java 17 & 21, HTML5, CSS3

Frontend: React, Next.js, TailwindCSS, shadcn/ui, Framer Motion, Responsive & Accessible UI

Backend & Data: Spring Boot, REST APIs, Supabase, SQL

State Management: Redux Toolkit, Context API

Cloud & Deploy: AWS Amplify, AWS Cognito, AWS S3, AWS CloudFront, Vercel, Netlify

UI Libraries: Radix UI, Material UI, Lucide React, Konva, Milkdown

Tools: Git, GitHub, VS Code, Ubuntu Linux, Chrome DevTools, Figma

PROJECTS & EXPERIENCE

DRIVE — CLOUD STORAGE (FULLSTACK)

A Google Drive-style cloud storage platform built end-to-end.

- Folders, uploads, sharing, trash lifecycle, and responsive grid/list UI.
- Spring Boot API with SQL persistence and AWS-backed storage.
- Tech: React, Spring Boot, Java, SQL, AWS.

LEARNING MANAGEMENT SYSTEM (FULLSTACK)

End-to-end LMS with admin, learner, and distributor flows.

- Admin dashboards, learner management, distributor flows, auth & reporting.
- Built the React frontend and Spring Boot API together.
- Tech: React, Spring Boot, Java, SQL.

ANIMAL TRACKING SYSTEM (FULLSTACK)

Fullstack tracking platform for locating and monitoring animals.

- Tag registration, live location, history logs, searchable records.
- React client, Spring Boot API, relational storage.

NETFLIX CLONE (FRONTEND)

Frontend clone with carousels, hover previews, category rows, and responsive tiles.

SPOTIFY CLONE (FRONTEND)

Frontend Spotify take with playlists, audio player, and sidebar navigation.

TO-DO APP

Responsive To-Do application using HTML, CSS, and JavaScript with localStorage persistence.

EXPERIENCE

SOFTWARE ENGINEER — BREEZEWARE, REMOTE

Jun 2026 – Present

- Promoted to full-time engineer after a 10-month internship.
- Ship production React frontends and Spring Boot APIs across client and internal products.
- Own features end-to-end: schema design, API implementation, UI delivery, and post-release polish.

SOFTWARE ENGINEER INTERN — BREEZEWARE, REMOTE

Aug 2025 – May 2026 · 10 months

- Shipped production features across multiple client products on React and Spring Boot.
- Participated in sprint cycles, peer code reviews, and delivery-under-constraint workflows.
- Earned promotion to full-time engineer at the end of the internship term.

FULL STACK DEVELOPER INTERN — DNYX BUSINESS SOLUTION, REMOTE

Jul 2024 – Nov 2024 · 5 months

- Developed and optimized web applications with Next.js and React.js.
- Integrated REST APIs and databases for backend functionality.
- Participated in team code reviews and debugging sessions.

WEB DEVELOPER INTERN — ELGI EQUIPMENTS LTD, REMOTE

Feb 2024 – Jul 2024 · 6 months

- Built the frontend for a Digital Twin dashboard visualizing real-time equipment telemetry.
- Improved operator visibility into machine state through interactive HTML, CSS, and JavaScript UI.
- Collaborated with a cross-functional team on iterative delivery.

GENAI & DATA SCIENCE INTERN — IBM SKILLSBUILD, REMOTE

Feb 2024 – Mar 2024 · 2 months

- Completed IBM SkillsBuild's GenAI & Data Science internship program.
- Hands-on with predictive modeling and analytical workflows.

EDUCATION

JANSONS INSTITUTE OF TECHNOLOGY

Bachelor of Engineering

LANGUAGE

English, Tamil

LEADERSHIP & ACTIVITIES

- **IEEE Secretary**, Jansons Institute of Technology (Jun 2024 – Present)
- **GDSC Member** — Completed GenAI Study JIT Tracks (2023, 2024)
- **NSS Volunteer** — Social outreach and technology drives (2022 – 2023)

CERTIFICATIONS

- **Git & GitHub** — Udemy (2024)
- **Extended Reality Technology** — NPTEL, 76% (2023)
- **Google Cloud GenAI** — GenAI Study cohorts (2023 & 2024)
